VOICE AI · INSURANCE

Oct 27 – Nov 4, 2026 · NexaSure is a fictional insurer · sample documents

CoverPilot

A voice co-browsing agent that fills an insurance application with the customer, and a second, independent agent that reviews the policy before he signs.

OmniCB Agent

Co-browses the application by voice

Integrity Guardian

Independently reviews the policy

Current problems in buying insurance

Families are underinsured, forms are abandoned, and errors surface only at claim time

GLOBAL LIFE PROTECTION GAP

$432B

Households lack about 56% of the cover they need if a breadwinner dies

Swiss Re Institute, 2024

84%

of insurance leads abandon the quote early

Earnix via FinTech Global, 2026

#1

Application errors are the most common reason claims get contested

Industry claims analysis

91%

of consumers accept terms without reading them

Deloitte Global Mobile Consumer Survey

INDIA CASE STUDY

₹976 crore in denied death claims in one year · only **3%** of protection need covered

Sources: Swiss Re Institute; IRDAI Annual Report FY 2024-25; Deloitte; Earnix

How CoverPilot solves each problem

Two agents, one fills with the customer and one checks before signing

PROBLEM	COVERPILOT
Long forms, high abandonment	Customer speaks: “My name is Rahul Sharma” fills the name **OmniCB Agent**
Typing errors and mismatches	Documents fill the fields; mismatches shown, never overwritten **OmniCB Agent**
Nobody reads the policy	Reads every page, flags issues with page references **Integrity Guardian**
English-only forms	Any language by voice; English, Hindi, Marathi in the demo **OmniCB Agent**
Hard to trust AI with a contract	One-click confirm on smoking, income, nominees; all actions audited **Both agents**

MANUAL VS COVERPILOT

Metric	Manual	CoverPilot
Time to complete	20–60 min	**4–6 min**
Fields typed by hand	36+	**3 of 14 · rest one-click**
Data-entry errors	1–4% of fields	**Mismatches flagged**
Policy review	10–15 min, often skipped	**6.4 s**
Issues found (sample)	~0–2 of 7	**7 of 7**
Languages	1	**3 in demo, scalable**

Manual: global industry benchmarks and estimates · CoverPilot: measured in the demo on sample documents

What it does, and which model does it

Every feature in the demo, mapped to the model behind it

FEATURES

Voice co-browsing
OmniCB Agent fills the form as the customer talks: English, Hindi, Marathi.

Documents to fields
PAN, Aadhaar and salary slip fill the form; differences are shown, never overwritten.

ID privacy shield
ID cards are blurred in the browser; the original never leaves it.

The customer decides
Confirm or Undo on income, smoking and nominees; he types his mobile, signs and pays.

Step gate
No step can be skipped while required details are missing.

Independent review
Integrity Guardian reads the whole policy, flags issues with page references, answers questions.

Audit certificate
Every agent action is verified and recorded.

MODELS

Muse Voice Transcribe	Hears the customer, live
Muse Spark 1.3	OmniCB Agent: replies, actions, documents
Muse Wonder	Verifies each action against what he said
SAM 3.1	Finds photo, signature, QR on blurred IDs
Muse Spark Open	Integrity Guardian: policy review
Muse Image	Personalised policy summary card
Google Cloud TTS	Voices · the only non-Meta model

TECH STACK

Web app	Next.js 16, React 19, TypeScript, Tailwind 4; PDF.js reads documents in the browser
Voice agent	Python 3.12, Pipecat 1.14, FastAPI; Silero VAD, Smart Turn v3, BM25 knowledge search
Realtime audio	WebRTC (SmallWebRTC) with Cloudflare Realtime TURN
Model hosting	Meta Model API; Muse Spark Open on Modal (serverless GPU)
Ship and test	Docker; Playwright acceptance suite on Chromium and Firefox

Beyond insurance, and what comes next

The same two agents work on any long form and any document a customer must trust

USE CASES BY INDUSTRY

Banking and lending 01

Fills Loan and KYC onboarding

Reviews Loan agreements

Insurance 02

Fills Health and motor claims

Reviews Policy exclusions

Legal 03

Fills Affidavits, court forms

Reviews Contracts and NDAs

Government 04

Fills Benefit and tax forms

Reviews Scheme terms

Healthcare 05

Fills Patient intake forms

Reviews Treatment consent terms

Real estate and telecom 06

Fills Rental, SIM applications

Reviews Lease and service terms

FUTURE WORK

01 More Indian languages beyond Hindi and Marathi

02 A Meta text-to-speech voice, removing the one outside service

03 Integration with a real insurer's e-sign and payment

04 Guardian on more document types and longer policies

05 Hand-off to a human advisor mid-call, with full context
